

# WORK FOR YOUR DREAMS!

*We  
develop a passion  
for Teaching!*

**INFINITY PODCASTS**

I need you to think about your dream that big life dream the people who dream and those people who dream big have a different kind of life than the people who don't dream a winner is a dreamer who never gives up dreams requires sacrifices like my city's expensive move my car payments are high sell your car and take the bus this is dreams we're talking about we're talking about dreams whether it's fear or anxiety whatever it may be I believe that every single person is going out to chase their dreams has those voices in their head I think it's part of the human experience stop downgrading your dream to fit your reality and start upgrading your conviction to match your destiny stay strong have faith keep pushing through I've said this

before and and I'm living proof of  
it is that on the other side of your  
struggle is something good on your  
other side of your struggle is  
something better on the other side  
of your struggle is some sort of  
success why would you waste one  
second doing something that wasn't  
progressing your dream go after  
this thing called life and don't look  
back and have regrets understand  
that you're at a place in a position  
right now with hard work and  
valuing people nothing can stop  
you I promise you so your dream  
will cause you to go insane  
because what you want it hunts  
you every single night see the big  
dogs they won't give you the  
opportunity you're gonna have to  
take it I need you to remember  
your destination you don't realize  
your dreams are so important

because your dna who you are as a person is wrapped up in your dreams no matter what happens you will not quit because quitting is not an option because you have a why you have a patch and you have a purpose your dna is in your dreams be the example for the crazy dreamers in this world you have got to make a declaration that this is what you stand for you're standing up for your dreams you're standing up for peace of mind you're standing up for health you want it and you're gonna go all out to have it what you want exists don't settle until you get it you need to use guilt as your fuel you need to start feeling guilty when you're not achieving or striving towards your dream you can use the people that doubted your dream as motivation when your dreams

are dying and when you don't have  
enough strength to go on I need  
you to stop the procrastination I  
need you to let go of our  
limitations so I'm here to tell you  
today that you can have anything  
you want be anyone you want but  
you're gonna have to work see  
dreams aspirations they're not  
easily obtained but one of the  
hardest things to do is to keep  
going is to keep chasing people  
will give up their dreams for  
certainty but I'm telling you that  
your life will start to change when  
you become more committed to  
your dreams than your comfort  
zone stop being pushed around by  
the fears in your mind and start  
being led by the dreams in your  
heart this is your moment and you  
gotta look in the mirror and believe  
that[Music]ease is a greater threat

to progress then hardship so take  
advantage of today take advantage  
of tomorrow take advantage of  
every opportunity that you have to  
do what you want in life life's too  
short to be working on someone  
else's dream and I know it's  
difficult to follow your dreams but  
it's even worse if you don't you  
have to find a way to build your  
own dream or someone else will  
hire you to build theirs if you give  
up on your dream what's left  
because the people who  
accomplished their dreams in this  
world stopped telling people about  
them and started showing them  
they never once gave upon a dream  
just because of the amount of time  
it took to accomplish it no they  
knew that the time was gonna pass  
anyway every single successful  
person that accomplished a dream

will tell you that as soon as you truly start pursuing your dream your life wakes up and everything has meaning you need to know without a shadow of a doubt that it's going to happen and when you believe whole heartedly then there's no need to call it a dream the people that are running after their dream know they're gonna have hard times they keep on running because they're saying within themselves I'm the one I'm the one no matter how bad it is or how bad it gets I'm going to make it it's simple you either change your dreams or enhance your skills the amount of work is the same every person that did incredible things in this world had to dream crazy dream big don't wait for the perfect opportunity create it you are your only limit your potential is

endless go do what you dreamed  
you could do believe you can and  
you're halfway there don't worry  
about failure you only have to be  
right once because when  
something is important enough you  
do it even if the odds are not in  
your favor you got to stop  
believing in the doubters and start  
believing in your abilities you've  
got hate use it put in the extra hour  
fueled by the anger you have for  
not achieving your dream keep  
striving never give up fall down  
seven times get up eight are you  
tired think of all the people that are  
counting on you when you succeed  
I believe that every person has the  
ability to flip a switch inside their  
mind and say it's go time I'm not  
holding back no matter what it  
takes I will do what I say this time  
it's different I've caught the fire I'm

ready to go this year is my year  
there's always another skill there's  
always another challenge and your  
dream needs to be stronger than  
your excuses if you do not do what  
you're doing right now well your  
goal is just going to be a fancy  
desire isn't it because you will feel  
defeated at times you're going to  
want to give up but you have to  
start doing things that you didn't  
know you could do staying in your  
comfort zone never does anything  
for you because even if you think  
you're out of your comfort zone  
there's always another level show  
the world how bad you'll fight to  
be in the winner's circle if you can't  
find the key to your dream then  
pick the lock either you find a way  
to accomplish your goal or you  
make one if you fight your  
limitations you get to keep them if

you're not getting the results you  
want from your dream then  
examine your motivation give  
yourself something to work  
towards constantly take charge of  
your emotions don't let someone  
else choose them for you it's time  
to ignite the dream it's time for you  
to stop settling for just money and  
really open your game  
up[Music]all you have to do is  
know where you're going and the  
answers will come to you forget  
the past mistakes forget the failures  
forget every thing except what  
you're going to do now and do it  
it's taken me my entire life to  
understand it's not necessary to  
know every single detail and to  
stop testing the waters and just  
dive in you're gonna get judged  
regardless of what you do expect  
the best plan for the worst and

prepare to be surprised big results  
require big ambitions it's tapping  
into your own emotions and letting  
them drive your dream so you
